

Enriched Air Diving

Specialty Series

010PDH3

Welcome to one of PADI's most popular specialties – the PADI Enriched Air Diver course. Diving enriched air lets you safely extend your no decompression limits, which means more time underwater and shorter surface intervals – so you can get back in the water sooner.

Whether you're into underwater photography, wreck diving, on vacation in some tropical paradise with crystal clear, warm water or just out for a leisurely day of diving at your local dive site, the PADI Enriched Air Diver course will keep you where you want to be...underwater.

Continue your adventure today!

PADI home study materials allow you to learn at home, at your own pace. For more PADI program information ask your PADI Professional, or visit padi.com.
